

BOAT WRECKED  
NEAR A HARBOR

The C. B. Lockwood, with  
Ten Sailors Aboard,  
Still Missing.

## SEVEN ARE SAVED

The Boat Goes Down in an  
Awful Gale--Storm Worst  
in Many Years.

## STORY OF TWO WOMEN

(Special By Scripps-McLae.)  
Ashtabula, O., Oct. 14.—The steam-  
er C. B. Lockwood went down last  
night in a gale fifteen miles west of  
the city harbor and ten of the crew  
that escaped in the yawl are missing  
up to noon today. One boat was pick-  
ed up.

**Terrific Storm**  
The storm that wrecked the Lock-  
wood was one of the worst that has  
been known on the Great Lakes for  
many years. The sea was very high  
and it is thought that the missing yawl  
was capsized.

**An Awful Night**  
The seven persons rescued includ-  
ed two women, employed on the boat,  
and their story of the sufferings of  
the night are pitiful to hear. When  
picked up all were in an exhausted  
condition.

YELLING INDIANS  
INTIMIDATE SHERIFF

Force Posse to Release Companions  
Under Arrest for Killing Game  
Out of Season.

Belle Fourche, S. D., Oct. 14.—  
Game Warden Lathrop and a posse of  
twenty men were very near death  
when they were surrounded by 100  
yelling Indians in war paint, bent on  
rescuing three companions from the  
officers, who had arrested them for  
killing deer out of season. The In-  
dians were from the Standing Rock  
and Cheyenne agencies, and were heav-  
ily armed. They were overtaken by  
the posse on Moreau river, fifty miles  
from Belle Fourche, and three men  
with slaughtered game in their posses-  
sion arrested. Their comrades gath-  
ered about the little band of whites  
and lost no time in parrying, demand-  
ing the liberation of the prisoners or  
extermination of the whites. The men  
were set at liberty and rode off with  
the band, all declaring they would  
slaughter enough game for the winter.  
Warden Lathrop returned to Belle  
Fourche and is organizing a large  
posse of cattlemen. He declares he  
will make prisoners or funerals. Un-  
less the Indians are returned to their  
agencies serious trouble will probably  
occur.

STRIKE IS PRACTICALLY AT AN END,  
AND MINERS READY TO REJOICE

Mitchell Has Conference with District Presidents--  
Settlement the Work of Roosevelt, Root and  
Morgan--Miners Obtain Their Demands.

New York, Oct. 14.—Through the intervention of President Roosevelt  
and the work of Senators Quay, Penrose and Platt and Governor O'Dell  
and J. Pierpont Morgan the coal strike is settled. While the operators  
do not concede everything, with the exception of the recognition of the  
union they grant all of the demands made.

It is a victory for President Mitchell and for the miners at large. They  
will receive a ten per cent. raise and an eight hour day. The operators  
have agreed to allow the President to appoint a board of arbitration and  
the men are to go back to work at once.

**RESULT OF CONFERENCES**  
This result was brought about by the many conferences that have  
been held during the past week in this city. Yesterday afternoon Morgan  
went to Washington and had a long conference with Secretary Root and  
later was closeted with the President for two hours. Wall Street appar-  
ently knew that a settlement was in progress and the way that the coal  
stocks soared up was enough to warn anyone that was short that the end  
had come.

**BOARD AS NOW TALKED OF**  
1. An Engineer officer of the army or navy.  
2. An expert mining engineer experienced in mining and not connect-  
ed with coal property.  
3. One of the judges of the eastern district of Pennsylvania.  
4. A man prominent and eminent as a sociologist.  
5. A man who by active participation in mining and selling coal is  
familiar with the commercial features of the business.  
It is proposed that this commission determine all questions at issue  
and shall fix terms, which the operators agree to accept.  
The committee also to fix a date when the agreement shall be effective  
and the conditions of employment between operators and employees, the un-  
derstanding being that immediately upon the creation of the commission  
the miners return to work and cease interference with any non-union  
man now working and who may work hereafter.

**ROOSEVELT PLEASED VERY MUCH**  
Washington, D. C., Oct. 14.—President Roosevelt is much delight-  
ed over the outcome of the efforts to settle the strike. He is particu-  
larly pleased with the way which Secretary Root has brought about the  
ultimate proposition to the miners from the operators. From a political  
standpoint last night's proceedings are considered very telling.

**PERSONAL COMMISSION SUGGESTED**  
Admiral Melville or Gillespie are suggested as military or naval en-  
gineer. Frank Klept or Prof. Charles Caldwell as mining expert; Judge  
Gray, ex-senator from Delaware, as judicial member; Labor Commissioner  
Wright, Jacob Rills or Henry George as fourth member and the fifth  
member to be named will be a man familiar with the coal business.

**MITCHELL IS RETICENT ABOUT IT**  
Wilkesbarre, Oct. 14.—President Mitchell this morning called the dis-  
trict presidents together to consider the question of arbitration made by  
the operators. He refuses to make any statement until the conference is  
over.

**MAY NOT ACCEPT IT AS IT STANDS**  
Several strike leaders believe that the operators will have to modify  
the proposition before it will be accepted by Mitchell. They think that  
the arbitration board should have a business man upon it.

**MINERS READY TO CELEBRATE**  
Throughout the entire mining district the miners are ready to cele-  
brate and take the proposition as ending all troubles of the past.

ner this morning paid a fine in the  
municipal court for an assault upon  
the city dog catcher, Thomas Fry be-  
cause the latter captured one of his  
dogs. The assault was made yester-  
day afternoon and Fry was knocked  
senseless.

VICTORY WAS WON  
BY JEWISH BAKERS

Employers Have Been Forced to  
Meet Conditions Demanded  
by the Strikers.

(Special By Scripps-McLae.)  
Chicago, Ill., Oct. 14.—The Jewish  
bakers have won their strike and sev-  
en employers have signed the union  
scale and the others will do so. The  
hours were the main cause of the  
trouble and this will be settled in a  
few days.

**Demand for Reading Matter.**  
Some idea of the increasing appetite  
of the American people for "reading  
matter" is conveyed by the census  
bulletin on "Printing and Publishing."  
The number of newspapers and peri-  
odicals published in 1900 was 13,226  
and the aggregate number of copies  
issued in that year was \$1,681,487,749.  
The latter staggering total was an  
increase of 74 per cent over the cor-  
responding total of the census of 1890.

SENATOR SPOONER  
STARTS CAMPAIGN

Enthusiastic Ovation Greeted Wiscon-  
sin's Favorite Son at Mil-  
waukee Last Night.

(Special To The Gazette.)  
Milwaukee, Oct. 14.—Senator John  
C. Spooner last night delivered the  
first of his campaign speeches at  
Schlitz Park. Despite bad weather  
the giant auditorium was packed to  
the doors to hear the able senator  
and his appearance was the signal  
for a burst of enthusiasm that seldom  
has greeted a political speaker in  
Wisconsin.

**Talks on National Issues**  
The senator confined his remarks  
to the national issues before and  
with the exception of one remark on  
state politics let that subject entire-  
ly alone. He treated mostly on the coal  
strike and the tariff question and  
dwelt upon the fundamental prin-  
ciples of the republican party. Fully  
three thousand people heard the ad-  
dress.

**Speaks in Janesville**  
On Tuesday, Oct. 21, the Senator  
will speak in Janesville. This is  
the only speech that he will make in  
Rock county and much interest is be-  
ing felt over his coming to that city.

EXPLOSION IN MINE  
KILLS AND INJURES

Two Are Dead, Four Fatally Injured  
and Others Seriously Hurt  
at Pawnee.

Springfield, Ill., Oct. 14.—Two men  
were killed, four fatally and others  
seriously injured in an explosion at  
Victor mine, Pawnee, eighteen miles  
from here.

The dead: W. V. Overcash, Michael  
Vorja.  
The injured: Frank Isaacs, Peter  
Green, John Burke, George Worrey,  
Daniel Reece, John Dick, William  
Sparling, Peter Cervovich, Jerome  
Sproule, Thomas King, Joseph Rich-  
ner, Thomas King.

The explosion occurred just before  
the day force of 190 men went off  
duty, and was caused by too much  
powder in a blast, the concussion  
causing coal dust, which thickly over-  
hung the mine, to explode with great  
force. Some idea of the force of the  
explosion can be learned from the fact  
that all those killed and injured were  
about 4,000 feet from the place where  
the shot was being fired. The injured  
suffered much, as the nearest doctor  
was at Auburn, ten miles away.

T. P. Nelson of Madison, assistant  
state game warden, was a visitor to  
the court house today.

## SOME POINTS FROM SPOONER'S ADDRESS

President Roosevelt has proved himself a worthy successor to Wil-  
lam McKinley.  
There are only two places tonight, I believe, in the United States  
where men are blue as to the industrial and financial conditions. One  
of them is in Wall Street and the other in a Democratic meeting.  
We have more money in circulation in the United States than we  
ever had before.

It is quite absurd for a man who gets a high price for what he has  
to sell to expect everything to be lower which he expects to buy.  
When a combination of capital like the coal trust refuses to recog-  
nize a combination of labor it reaches a dizzy height of impudence.  
Labor has as much right to combine as capital. Capital has as much  
right to combine as labor—both must keep within the law.

I think competition in good part has been the cause of these combina-  
tions. I think the only relation the tariff has to them in the world  
is the competition which sprang up from the tariff. . . . They  
are the outgrowth and the inevitable outgrowth of modern progress.  
They are evolution and men may talk about them as they please.  
They are servants of the law and of the people.

## LA FOLLETTE IS HEARD BY MANY

GOVERNOR OPENS REPUBLICAN CAMPAIGN IN THIS CITY.

HON. M. G. JEFFRIS PRESIDED

State Issues Were Discussed at Length, and President Roosevelt Was Commended.

Governor LaFollette last evening addressed a meeting of citizens which filled the two lower floors of the opera house. His address covered, in main, the two subjects on which he has stood throughout the campaign, the primary election law, and equalization of taxation. His speech was prefaced by an endorsement of President Roosevelt's attitude toward the coal barons, and a general review of the fuel situation, and of the remedial measures which he himself advocates. Mr. G. Jeffris introduced the speaker to the audience, but before calling upon the Governor, he announced a selection by E. O. Kimberley. Mr. Kimberley responded with an original song, to the tune of "Good-night Ladies," the burden of whose chorus ran:

"Good-bye, Rosey,  
"LaFollette is our man."

Mr. Jeffris then stepped forward and in a few words summarized the attitude which should exist between the two wings of the republican party. "We have our differences, and we may still have them in minor matters, but we now stand where we stood forty years ago, fighting our common enemy, Democracy, remembering that it is always safer to trust the administration in the hands of the republican party." After briefly commenting on the need of a republican legislature, he went on to compare the branches of the party to a man and wife who quarrel between themselves, but unite against a common enemy. Mr. Jeffris then introduced, "Robert M. LaFollette, the Governor who is, and the Governor who is to be."

At this the governor rose from his seat, amid applause, which, by the way, was far from deafening, and began his address. It was noticeable from the first, and at times painfully so, that Mr. LaFollette's voice was not holding out well. Physically he looked in the pink of condition, but it was necessary for him to refer frequently to the water pitcher, and his voice was unpleasantly strained and harsh when he attempted to speak with more than usual stress.

Governor LaFollette expressed his surprise at the size of the audience present, and then after stating his opinion that no campaign had borne more important issues since the 60's, he took up what he considered the keynote of the campaign, the control of the combinations. He thoroughly agreed with the recent utterances of the President along these lines, and predicted that the next congress, if Republican, would remove the duty on coal.

After voicing the theory that competition is the handmaiden of protection, the governor enlarged upon the safety of the consumer under a system of open competition, unhampered by tariff. The railways were then roundly scored for their work inabetting the formation of combinations, and the opinion was expressed that the government should have the power of controlling the trusts, even to the point of taking away their articles of incorporation, if necessary.

Municipal corruption was dealt with next. Milwaukee and her franchise grants was first taken up, and the statement plainly made that if the street railway company paid any one for the valuable rights which it received, it was not the city. What is true in Milwaukee, is true in all other great cities. Under the same head, the eluding of taxation by public officials, and the boodle scandals which were recently uncovered.

An Argument  
If you make your own ticket, the men on the ticket will serve you; if the corporation makes your ticket, the nominees will serve the corporation, was the argument which the governor used to uphold the primary election law. If a machine can be built up under the primary election law, why are not all machine politicians supporters of that law?

Under the present caucus laws a man must attend six different caucuses in order to do his part in making the nominations, while under the direct system he would only be obliged to attend one. At Darlington the governor had asked the audience how many had attended all six caucuses, and only one man responded. He was a game warden. At Stoughton one man out of 1,200 had attended all of the five which were held in that city.

RICHARD A. McCurdy, President.  
T. H. Bowles, Mgr., Milwaukee, Wis.

After a resume of the experience in states, where the law had never been tried, the subject of taxation was discussed.

A loss of \$2,400,000 to the state was attributed by the speaker to failure to increase the railroad taxes. The legislature was bitterly scored for its failure to adopt the whole of the recommendation of the tax commission, and the defeat of the school tax bill was explained.

Condemns Railroads  
Governor LaFollette then came out strongly in favor of the taxation of mortgages, notes, bonds and other securities and ended his address with a general condemnation of the railroads. They have the legislatures of the states directly under their control and are responsible for the impossibility at times to secure equitable legislation.

## KENTUCKY AS AN OIL PRODUCER

William G. Wheeler Has Just Returned from the Recently Opened Oil Field There.

District Attorney William G. Wheeler has just returned from the newly developed oil fields of Kentucky. At the present time when fuel is scarce and oil is talked of to take the place of coal it is interesting to note that this new Kentucky field has an almost inexhaustible supply of that fluid ready to put on the market as soon as facilities are given for transportation.

Up to two years ago no efforts had been made to develop the resources of that district, and at that time the work was only begun in a desultory fashion. Since that time operators and capitalists have taken more interest in the possibilities of the region, and the latest results of their investments may be regarded to absolutely prove the existence of a large quantity of valuable oil.

Transportation Lacking  
One of the wells which Mr. Wheeler saw on his trip was giving a flow of four hundred and eighty barrels a day and another was about as productive. The company had three two hundred and fifty barrel tanks filled with oil. Other wells of undoubtedly great yield were not in operation at that time, owing to the impossibility of transporting the oil. It has been found cheaper at present to leave the oil in the well than to store it until such a time as it will be possible to ship oil advantageously.

On the road out to Barberville there are thirty-seven oil wells within six miles of the city. A liverman in that city told Mr. Wheeler that he had twenty-five saddle horses, all or nearly all of which were in use every day, by prospective speculators.

Rush To Field  
Great activity is manifest on every side. One man recently let the contract for drilling ten deep wells, and the Atlantic and Pacific oil company has a large number of wells already drilled and in prospect. The difficulty is to secure the boring machinery and men to do the work. Everyone employed in that line of work is employed constantly and cannot meet the orders from new arrivals on the field.

No company is making preparations to enter the field on such a scale as is the Standard Oil company. A 25,000 barrel oil tank is now being constructed and a pipe line to Tideswater will be completed by January 1. The cost of the tank and pipe line is estimated at \$1,000,000. Lateral pipes will lead from the different wells to the storage tank from which the oil will be conducted over the pipe line to the railroad.

Will Buy All Oil  
This means that a purchaser is assured for all oil that is produced and shipped by this line. If desired, the owners of the individual wells, the product of which is delivered to the pipe line, can sell the oil for themselves, or the Standard Oil company will buy it from them at the prevailing price of from \$1.00 to \$1.40. These activities on the part of the Standard Oil company are taken as conclusive proof that that concern feels satisfied of the permanent nature of the field.

The different wells range in depth from 350 to 1,400 feet, the large flowing well referred to, having a depth of 375 feet. The latter is located within about a quarter of a mile of one piece of property owned by the Badger Oil and Gas Co. In which Mr. Wheeler is interested. The oil has been tested and compares favorably with the best grades of West Virginia and Pennsylvania oil, of a high illuminating quality.

To Begin Pumping

As soon as the pipe line is completed pumping will be begun by most of the companies, but up to that time there will be practically no market for oil, owing to the lack of transportation facilities. The Badger holdings are located about five miles from the railroad, and over the rough and hilly ground transportation by wagon would be impracticable.

One year ago, the Badger company was organized. They have three tracts of land, in one of which there have been two borings made, another three, while the third is untouched, and Mr. Wheeler says there is reason to believe that it is the best yielding of the three. 1150 acres comprise the entire amount of land owned by the company.

Western Capitalists  
More western capital is interested in the field than eastern. Concerns have been organized in the Dakotas, Duluth, Superior, and other western cities, and it was by these parties that the oil was originally developed. The eastern money has been interested in the Kentucky oil fields at a recent date, and only to a comparatively slight extent.

Northwest Wheat Production.  
The agricultural book of the Northwest territories shows that in four years the production of wheat has increased from 5,542,478 bushels to 12,808,447 bushels, and of oats from 3,040,307 bushels to 9,716,132 bushels.

## ERROR OF \$500 MADE BY ROWSON

HE TELLS THE COMMON COUNCIL HIS TROUBLES.

ALDERMEN MET LAST NIGHT

Transacted Considerable Routine Business—Clubs Ask to Meet in Assembly Room.

Despite the absence of Mayor Richardson and two aldermen, the city fathers met last night in regular session and conducted the routine business of the fortnightly meeting. Nothing of great importance was done and but few matters of importance transacted. Even the city attorney failed to be present and several communications that would otherwise have received attention were set over until the next session. Alderman Rice, Kothman, McLean, Hutchinson, Judd, Lowell and Murray were present and in the absence of acting president, Gilkey, Alderman Hutchinson was in the chair.

Contractor Rowson appeared before the council and made a plea for an increase of \$668.80, over his bill as presented some time ago. It would seem that Mr. Rowson made a mistake in adding his figures and instead of figuring that the city owed \$14,940, instead of \$14,140. He also had two bills in excess of his calculations, one for \$37.50 for wiring the tower where the famous clock is and one for \$31 for hardware sundries.

Mr. Rowson made a pleasing speech and explained to the aldermen that he did not think that he should stand these errors in judgment and it was right and just that the city pay for the excess and miscalculations that had been made. He made so strong a plea in his favor that it was decided to refer the bills to the building committee and it is probable that they will be paid, increasing the cost of the new city hall a few hundred dollars more.

To Have Alley  
The council also decided to have the proposed alley back of the building and ordered the city clerk to draw \$500 to pay to I. F. Connors for a strip of land to be used for such purposes.

County To Help  
Alderman Kothman had a communication from the county board which he read to the effect that the county of Rock would pay two thirds of \$500, the yearly rental for the municipal court room. In the absence of the city attorney further time was asked for the consideration of this proposition and the matter was set over until the next meeting. Before that time the legality of the offer will be carefully investigated by the city attorney.

Want Use Of Hall  
Alderman Lowell told the council that several societies had asked him to present to the council a petition for the use of the assembly hall. Alderman Mills explained that as most of the applicants were members of women's societies and as they would use the hall in the afternoon when gas, etc., would not be used he could see no objection to granting their requests. After some discussion a committee of three consisting of Aldermen Mills, Rice and Murray were appointed to investigate the matter and make a report at a later meeting.

Assistant For Fathers  
Alderman Hutchinson then made a statement as to City Treasurer Fathers' illness and on motion it was decided to engage a competent man to take charge of the tax business of the office until such time as Mr. Fathers was able to be about again. During her father's illness Miss Fathers has been in charge of the office.

Street Railway Hit  
Alderman McLean made a complaint against the street railway company for leaving material in the streets after repairing the tracks and moved that they be ordered to clean up the refuse they have left in various places.

Want A Flagman  
Owing to the building of the new depot by the St. Paul company the gates on High Street are practically useless and Alderman Lowell introduced an ordinance to the effect that the two roads be ordered to station a flagman at the intersection of High St. and the tracks from six in the morning until ten at night each day. The ordinance was given the first and second readings and under a suspension of the rules was given a third reading and passed, all of the aldermen voting aye.

## "A NORMANDY WEDDING."

Pretty Opera Appears Tonight—Cast Contains Many Good Artists

"A Normandy Wedding" which will be the attraction at the Myers Grand this evening is described as being a genuine comedy set to most tuneful and melodious music. It is adapted from the French by J. Cheever Goodwin with new and original music by William First. The story is said to be coherent and witty told. An elderly elder merchant who is a bankrupt, marries his daughter to a man who is similarly devoid of financial resources, though both the old gentleman and his son-in-law think each other rich beyond the dreams of avarice. When they discover the error in which they have fallen, they are both enraged, and the elder merchant, a conscienceless old rascal, seeks to get out of the entanglement by passing off a goose head girl as his daughter upon another suitor who has several millions to his credit. "This suitor really falls in love with his daughter while the other girl in the end acquires the love of a poet who has adored her all along. The complications which arise from this plot are numerous and very amusing, the fun at times being said to reach the boisterous, although never descending to horseplay. The dialogues and lyrics are said to be exceptionally bright, at times being positively brilliant. The Grace Cameron Company that presents "A Normandy Wedding" is an extra ordinarily strong musical organization

and quite up to the high standard for which Manager Fred C. Whitney has become noted. Besides the star Miss Grace Cameron, the company includes the well known and popular comedienne, Harry Brown, Stephen B. French, Jr., Genevieve Reynolds and a chorus of unusually pretty girls.

## Sweet Clover

The attraction at the Myers Grand opera house Thursday Oct. 16 will be the season's excellent success "Sweet Clover," a play that is credited with having charmed large audiences in every city in which it has been represented. "Sweet Clover" is said to be a delightful four act pastoral play, beautifully staged and splendidly acted by Messrs. Broadhurst and Currie's company headed by Mr. Otis B. Thayer and Miss Blanche Hall.

This charming idyl of the Connecticut farm lands was written by Pauline Phelps and Marion Short, two young women, who it is said, never essayed dramatic work of any kind before, and this, their initial attempt at play-making, came as a surprise in its greatest strength and quiet and appealing beauty, to such well-seasoned managers as Messrs. Broadhurst and Currie. These gentlemen, seeing in its sympathetic story and dramatically made scenes, merit of a high order, accepted it at once and gave it a perfect mounting and excellent company—the same equipment, identically, it is said, that made the play so successful in the East last season.

Interest in the story is aroused in the very first act, and, from there, goes on with accumulative force until almost the concluding scene. Mr. Otis B. Thayer, as Jerome Holcomb, the old New England farmer, heartbroken over the loss of his wife, and further distressed over the unfortunate love of his daughter for the adopted son of her mother's betrayer, gives a strong exhibition of character acting, while Miss Blanche Hall, as Lois, the daughter, is both charming and convincing, displaying remarkable ability in the line of emotional acting.

Washington, Oct. 14.—Gen. James F. Smith of California has been appointed a member of the Philippine commission to succeed Bernard Moses, who is to retire Jan. 1.

## BRITISH FLEET TO BLOCK PACT ADD TO MEDITERRANEAN FORCE

Purpose is to Stop Consummation of  
Alleged Agreement Between the  
Porte and the Czar Yielding Control  
of Straits by the Sultan.

London, Oct. 14.—It is reported here  
that the British fleet in the eastern  
Mediterranean has been suddenly or-  
dered to the vicinity of Salonika and  
Smyrna to block any effort on the part  
of Russia to coerce Turkey into an  
agreement to allow the Czar's war  
ships to pass through the Dardanelles.  
It is also reported that the fleets at  
Malta and Gibraltar will be strength-  
ened as rapidly as possible, in order to  
be ready for any emergency.

These orders were given after the  
Cabinet meeting of Saturday, according  
to the report. At that meeting, called  
to discuss the education bill, the Dar-  
danelles question was considered so  
important and urgent that it occupied  
the entire attention of the ministers.

Russia and Turkey Agree.

The well-known determination of  
the Czar to make the Dardanelles ul-  
timately an exclusively Russian water-  
way lends a color of truth to the re-  
ports. At the same time, it has long  
been evident that Russia is pursuing  
a balking policy in regard to British  
interests.

Some high officials credit the per-  
sistent rumors that a compact between  
Russia and the Sultan in regard to the  
Dardanelles is in progress of negotia-  
tion, and that this action on the part  
of the Czar's government is only the  
first step toward a well-planned effort  
to secure entire control of the straits.

Fleet is Large.

It is this belief of the officials which  
has led to the dispatching of the fleet  
now maneuvering in the eastern Med-  
iterranean, in order that any attempt  
on the part of Russia to coerce Turkey  
might be stopped at the outset. The  
fleet consists of more than twenty  
battle ships, twenty armored cruisers,  
and thirty gunboats and torpedo-bomb  
destroyers. Along with this, it is said,  
that every garrison in the Mediterra-  
nean has been ordered to strengthen  
its defenses.

The Porte has taken pains to deny  
the whole report, declaring that no ne-  
gotiations are in progress, and none  
have been in progress, looking to a  
surrender of the Dardanelles to Rus-  
sia.

## GOES HOME WITH BROKEN NECK

Remarkable Exhibition of Nerve by  
Young Man of Danville.

Danville, Ill., Oct. 14.—After suffer-  
ing a broken neck and the displace-  
ment of all the ribs in his right side,  
William Hall, 19-year-old son of Jus-  
tice of the Peace H. J. Hall, walked to  
the street car line, a half mile distant  
from the place of his injury, and rode  
to his home in South Danville, where  
he alighted without assistance and  
walked to his home, two squares away.  
A few seconds after the arrival of the  
doctor he expired. His injuries were  
received by the turning over of a  
wagon containing a nutting party. Hall  
was trampled on by the horses.

## CHANGE IN FLOUR MILL SHIFTS

Eight-Hour Schedule Put in Force by  
Minneapolis Millers.

Minneapolis, Minn., Oct. 14.—The  
eight-hour schedule has gone into ef-  
fect at all the flour mills here. Here-  
after there will be three instead of  
two shifts. While the millwrights did  
not identify themselves with the eight-  
hour movement it has been understood  
that the rate of 35 cents an hour  
would apply equally to them. It is un-  
derstood that the millwrights have  
asked the mill operators for eight  
hours and \$3 a day.

C. G. Dale of New York County Na-  
tional Takes His Life.

New York, Oct. 14.—Charles G. Dale,  
cashier of the New York County Na-  
tional Bank, was found dead in his  
home in West New Brighton, having  
shot himself. Dale had been cashier  
of the bank for two years. He was  
about 40 years of age and leaves a  
widow and two daughters. Nothing in  
his accounts was found wrong.

Prescription  
would have saved  
years of suffering  
and a great deal  
of money.

For the regula-  
tion of the  
periods, the stop-  
ping of disagree-  
able drains, the  
healing of inflam-  
mation and ulcer-  
ation, and the  
cure of female  
weakness, there is  
no medicine can  
equal Dr. Pierce's Favorite Prescription.  
It makes weak women strong and sick  
women well.

"About five years ago I had very poor health,"  
writes Mrs. S. E. Whalen, of Holden, Johnson  
Co., Missouri. "After doctoring four years with  
our town doctors they gave me up; said  
they had done all they could. I had been con-  
fined to my bed half my time; the other half  
could hardly drag around. I had such pains in  
my back and abdomen I could not stand for  
more than a few minutes. My feet were cold  
or burning, and my periods came too often.  
The doctors said it was change of life, so as I  
had heard of Dr. Pierce's medicines, my hus-  
band got me a bottle of 'Favorite Prescription.'  
I took it and it helped me in some ways, so I  
wrote to you and followed your advice. I com-  
menced 'Favorite Prescription,' 'Golden Med-  
ical Discovery' and the 'Pelle's,' as I was so  
constipated all the time and pills would weaken  
me so that I would have to go to bed. To the  
great surprise of everybody I got well, and  
when I met my friends they would say, 'We  
never thought you would be here now.' But I  
can say it was your medicine which no doubt  
is the best in the world. Have had no use for  
doctors since I tried your medicine."

## THE GOVERNOR'S SPEECH

An attentive, but not an enthusiastic audience, greeted the Governor at the opera house Monday night. To say that his address was in any way a masterpiece, would be a libel on the intelligence of the people. It was simply a dramatic harangue in defense of Robert M. La Follette.

In discussing the tax question he arrayed himself against the combined ability of the legislature, and occupying the pedestal of a "little tin God on wheels," attempted to prove that he was right, and the peoples' representatives wrong.

The primary law was regarded as the all-important feature of the campaign. The Governor wants it, is bound to have it, "whether or no," and will doubtless continue to sulk in his tent if he fails to secure it.

## THE BEST MARKET

Imports of iron and steel have doubled in the last year, while exports of iron and steel are still falling off. The August import and export figures of the Treasury Bureau of Statistics show that the importations of iron and steel manufactures for the eight months ending with Aug. are eleven million dollars greater than in the corresponding months of last year, while the exportations of iron and steel manufactures are nearly five million dollars less than they were in the corresponding months of last year, and twenty-one less than in the corresponding months of 1900.

In the single month of August, the imports increased more than two million dollars over those of August 1901, and at the present rate of gain, the total imports of iron and steel in the calendar year 1902 will exceed those of 1901 by 20 million dollars.

This increase of imports over exports is very significant. It means while the steel and iron mills are running to their full capacity that they are unable to supply the home demand, and yet there are people who are clamoring for free trade, and a reduction of the tariff, not satisfied to let well enough alone.

Free competition with the foreign market means vastly more than competition with foreign capital. It means placing American labor in sharp competition with foreign labor, and this means lower wages, and in the end idleness and suffering.

## CONFIDENCE AND PROSPERITY

According to the last official returns the loans in the 4,600 National markets in the United States on September 15 stood at \$3,280,000,000, an increase of \$261,000,000 over the high figures of 1901. During the same period there were decreases of \$22,000,000 in specie, \$9,200,000 in legal tenders and \$5,800,000 in National bank notes. No better reason for drawing in the purse strings need to be produced.

These figures, that are difficult to comprehend on account of their magnitude are furnished by Henry Clews of New York in his last financial letter. The Wall street national banks are largely represented, and in spite of all that Secretary Shaw has been able to accomplish, it has been found necessary to advance interest rates to a prohibitive point, to check the tide of speculation.

A large block of this money was borrowed for investment in real estate while securities were good, the legitimate demand for money is so great at this season of the year that the banks found it necessary to call in funds that were being used for speculative purposes.

This first of the year will find the money market in healthy condition, because the era of prosperity continues with a favorable outlook for the next twelve months. It is well

not only for Wall street, but for every other street to call a halt now and then give the people an opportunity to see where they are at. The mania for speculation is rampant and wide spread.

## TARIFF ECHOES

Prosperity is doing all kinds of deviltry. It has just ordered two mantels for Colonel Bryan's new house in Nebraska. They are to cost \$2,500 a piece.—Cleveland Leader.

It is free trade that makes mortgages on farms, money scarce, interest high, wages low, stagnation, national debility, commercial prostration, finally developing into chronic calamity.—St. Mary's (W. Va.) "Leader."

Ever since it was discovered that free trade England was the actual parent of trusts there has been a lull in the democratic pow-wow about the republican party and the protective tariff having had something to do with the responsibility of money combines in this country.—Buffalo "News."

The difference between the republicans and the democrats on what to do with trusts is told in a few words: The republicans would regulate and control the trusts and hold on to prosperity; the democrats would kill the trusts and do away with prosperity.—Buffalo "News."

Wages are higher and interest on money is lower than ever before in this or any other country, and there is more work than wage earners. It is not possible for such a condition to exist without good times for people in all callings.—Popular Bluff (Mo.) "Republican."

Democratic speakers and the democratic press are essaying to make light of "the full dinner pail," but they find it difficult to make light of it, when it is so well filled.—Tiffin (O.) "Tribune."

## BEAR IT IN MIND.

It behooves every American citizen to bear constantly in mind that, whatever may be said and printed to deceive people and mislead him, "prosperity is the issue." The question for him to consider is whether, when he goes to the polls to cast his vote for congressmen this fall, and again two years hence when he shall vote for presidential electors and congressman, he will cast his ballot for the maintenance of the conditions that prevail, or for a relapse in to the conditions under which he suffered from 1892 to 1896; whether he will let alone what is certainly well enough or help to bring about a change that must be inevitably for the worse.—Albany "Journal."

The republicans of Wisconsin can not permit indifference to the success of the state ticket to influence them in the coming election. National issues are already coming up, and work for the national campaign is well in hand. Wisconsin has long been recognized as one of the staunch republican states. A full delegation should be returned to congress this fall, and the reputation of the state maintained.

The issue in the national campaign will be a free trade issue. Many republicans are weak kneed and are ready to believe that the tariff is responsible for the trust and all sorts of monopolies. The discussion of this much discussed question amounts to a mania, and unless the fact is checked, it is liable to amount to a democratic landslide in 1904.

The trust and the corporation is the easiest thing in the world to kick, because they never kick back, but they are evidences of prosperity and far preferable to the soup house and empty dinner pail. The most vigorous denouncer of combines, would join one tomorrow if he had an opportunity.

## POST CHECK CURRENCY.

It is being stated by an authority that has been giving some attention to the post currency question that if business organizations urge the passage of legislation to provide it the action of congress can be secured at the next session. That being the case there should be a general call for that action.

The post currency simply means the printing of circulating notes in such form that the holder endorsing a note in his possession can convert it into a draft payable only to the person named in the endorsement. This will do away with the loss of time, annoyance and expense of a money order every time that the sending of a small remittance is necessary. The saving to the public will immensely outweigh the slight increase in cost to the government, and the loss of revenues from money orders. There should be a strong representation to congress in favor of the bill.—Dispatch, Pittsburgh, Pa.

There is every reason why the Post check currency bill, now pending, should become a law at the next session of congress. It has everything to recommend it, and no valid objections are urged against it.

The farmer should be especially interested in this measure, for it provides him a currency that is easily converted into a draft and that is just as safe in mails as any other class of exchange. Letters favoring the measure, addressed to Congressman Cooper, will be helpful in securing favorable action.

## PERSEVERENCE OF THE ADVERTISER.

The bull dog is the best of all fighters for the simple reason that when he gets his grip he does not let go. The same persistence in advertising, the hold-fast principle, is

the only sure way to success. As well might a farmer expect a big crop of corn by occasional days with slow or hoe at the growing weeds as for the advertiser to think that he can hold and keep business by intermittent insertion of an advertisement in a newspaper. In trade there is the most active competition. Dealers are reaching out for it in every direction with strenuous persistence. They employ all possible means of publicity. What is more, the public has been educated into seeing the columns of the newspapers and magazines for information as to where to buy. It measures dealers by this publicity. The crowd follows the crowd, and the crowd goes where it is most cordially and persistently invited to go. The man who advertises intermittently must expect intermittent or spasmodic trade.—National Advertiser.

The book scandal has closed so far as public sentiment is concerned. It now remains for the people to render a verdict, and place the seal of disapproval, and this they will not be slow to do. The next state superintendent will be free from any taint of corruption.

As a financier, Dowle appears to have met his Waterloo. It is surprising that the catastrophe was so long delayed. His disciples will be greatly shocked, but it is high time that something startling occurred to dispel a vision that bordered on insanity.

Gold, silver and oil have been discovered in Dunn county. Now if some enterprising Badger will discover a coal bed, the state will be able to keep warm while the new industries are being developed.

Diamonds are said to be worth \$20,000,000 a ton and hard coal and hard coal anywhere from \$12 to \$25 with none in sight. You can buy diamonds on the installment plan, but coal is another proposition.

Three thousand women are employed in the truck gardens near New York city. They are mostly Poles, and the average wage, is one dollar per day.

The La Follette press is studiously engaged in fighting the constitutional school amendment. It did not originate in the governor's camp, and would naturally be a little off color.

The express robbery at Lincoln, Nebraska is another reminder that the criminals are not all behind the bars.

## PRESS COMMENT.

Marinette Star: Rose wasn't fishing for stalwart votes when he called McKinley "a blatant demagogue."

Boston Herald: The Chicago pastor who has lost his life savings in an alluring mining venture thus preaches an impressive sort of sermon.

Washington Post: The Bryan democrats up in Connecticut have jumped the fence. But there are not a sufficient number of them to kick up much dust.

Marinette Eagle: No republican, certainly no admirer and believer in either President Roosevelt or Senator John C. Spooner, can vote for David S. Rose.

Milwaukee Sentinel: The temperance people should get after the Buffalo saloonkeeper who is demoralizing the town by offering a lump of coal with every drink.

Chicago Inter-Ocean: If the people prove themselves to be bigger than the anthracite coal trust this winter they will be in better shape to meet the ice trust next summer.

Indianapolis News: With a poor seal catch in the Behring sea and no anthracite coal being mined, it is feared that there will be great suffering among the rich if the winter is at all severe.

Philadelphia Ledger: Ex-Senator Blair of New Hampshire urges the government to run the mines. He wanted the government to run the schoolhouses, and members of congress know what happened to him.

Milwaukee Evening Wisconsin: The discovery of what can be done in the way of heating and cooking with bricks soaked in oil will give the oil can fresh opportunities among the careless.

Milwaukee Sentinel: The man who fails to register and vote has no right to complain if the state is not governed to suit his tastes. Judging

## ART. ANDERSON HIGHLY HONORED

IS ELECTED TO MEMBERSHIP IN  
HONORARY FRATERNITY.

ONLY TEN CHOSEN AT MADISON

High Moral Character and Excellent  
Work Are Required by the  
Tau Beta Pi.

Arthur E. Anderson of this city was highly honored last Friday in the election to the Tau Beta Pi honorary engineering fraternity at Madison. He was one of the ten honored with the election from the entire enrollment of the engineering department of the university.

**Society's High Standing**  
Tau Beta Pi is the name of a society of the greatest engineering students of the world and election to it is an honor not surpassed by any college honor in the world. Membership is very limited and only students of the highest moral character and uniform excellence of class work are chosen.

**A University Senior**

The deserving and fortunate young man is the son of Andrew G. Anderson, foreman of the Janesville Machine company, and formerly president of the board of education. Arthur is a graduate from the Janesville High school in the class of '99. Immediately after graduation he began his work at the university of Wisconsin and he is now a Senior in the University, college of engineering, in the mechanical engineering course. He is possessed of much industry and has maintained himself at college in part by his own efforts. He is a leading member of the University Christian association and is chairman of the department of Bible study.

**Are in Europe**

The young man who has been so signally honored is at present traveling in Europe with his father. Many friends are delighted over this recognition of his merit and Mr. Anderson will be the recipient of hearty congratulations.

## CLARK TO TELL OF LIFE ON THE SEA

Prominent Gideon Will Give a Free  
Lecture at the Baptist Church  
Tonight.

Janesville Camp of Gideons, No. 2, not content with giving the public the benefit of the services held by them on last Saturday and Sunday, have arranged another treat and this evening at 7:30 o'clock Robert Clark of Indianapolis, will deliver his famous lecture "Life on the Ocean Wave" at the Baptist church. No admission fee will be charged and no collection taken, the lecture being absolutely free to the public.

Mr. Clark, who is the guest of Mr. and Mrs. J. H. Nicholson, is one of the prominent leaders in the Gideon movement. He has been an extensive traveler and has visited all of the countries of the world. He is a ready speaker and his lectures have been given before immense audiences. His remarks abound in humor and a large audience will doubtless assemble to hear him this evening. His personal experiences should prove very interesting.

## FRESHMEN AND JUNIORS MEET

Third Game in Denison Cup Series  
To Be Played at Park  
Tomorrow.

At 4:30 o'clock Wednesday afternoon, the weather permitting, the Freshmen and Juniors of the High School will meet at Athletic Park in an effort to decide a match which was held last week. On the latter date the resulting score was five to five, and it will be necessary to play off the tie before the next match for the Denison cup can be played. The next class game played will be that of the Sophomores against the Seniors a week from tomorrow. The Sophomores have won one game, while the upper classmen have yet to play their first match.

## MASS MEETING FOR STRIKERS

Beloit Trades Council Plans to Secure  
Funds for Miners in the Anthracite Region.

Tomorrow evening a mass meeting will be held in the opera house at Beloit to raise funds for the aid of the striking coal miners. The meeting will be under the auspices of the Trades Council of that city, and has been quite widely talked of among the citizens. As a distinctively union town, whose laborers are almost to a man in sympathy with the strikers, it is expected that the opera house will be crowded and that the response on the part of those who are present will be generous.

**Long List of Speakers**

Among those who will address the meeting are Rev. Howland Hanson, of the Baptist church, Dr. D. R. Connell, Attorney F. E. Frusher, a man closely allied with the organized laborers of the city, J. A. Fetherstone, a member of the machinists' union, Mayor Simon Smith and R. D. Hogan, formerly of Janesville, who is now editor of the Beloit Trades Journal.

**Virginia Kid Gloves, \$1.15**  
Having taken the agency of the Carlton real kid gloves, the best gloves made to sell at \$1.50, we will offer the Virginia kid gloves sold everywhere at \$1.50, at \$1.15 a pair, for one day, Wednesday, October 15.

J. M. BOSTWICK & SONS.

Janesville

The first of a course of six lectures on Greece by Prof. Wright of Beloit college will be given under the auspices of the Art League, Friday afternoon at 4 o'clock in the Y. M. C. A. building. Tickets for the course may be obtained for \$1.00.

The dates and subjects are as follows: Oct. 17, Reading and Interpretation from Homer; Dec. 12, Greek Tragedy; Jan. 16, The Parthenon, (illustrated); March 13, Greek Comedy; April 10, Plato's Republic; May 8, Types of Greek Sculpture, (illustrated).

## A Large Audience

Conover & Smith, glass blowers, opened their exhibition last night at 62 West Milwaukee street, Richter's old Stand, to a large and well pleased audience, many ladies and children being present, and all spoke highly of the exhibition.

Many pretty ornaments were made and given away to their visitors. The glass steam engine in full operation is a wonderful piece of work. They are open every afternoon and evening from 2 to 5, and 7:30 at night. The admission is ten cents and every visitor receives a souvenir.

## WHAT PEOPLE ARE DOING.

**Societies Attention:** The Gazette is glad to publish notices of club and society meetings, providing they are written out in the office by ten o'clock of the day they are to appear in the paper. It is difficult to take messages over the telephone and no attention will be paid to those sent in by telephone unless paid for. GAZETTE PRINTING CO.

**Sets Case Over:** According to parties concerned in the case of J. H. Lanphier against J. W. Niman, Justice Reeder was incapable of an impartial decision on that question, and on filing affidavits to that effect the case was transferred to Jesse Earle's court where the case was tried this afternoon.

**Orchestra to Meet:** A meeting has been called of the prospective members of the high school orchestra for tonight at the high school building. All have been requested to bring their instruments, and Mrs. Hyde will conduct the first rehearsal of the organization, and attempt to gain an idea of the possibilities of the orchestra and the necessary changes in the instrumentation.

**Play Postponed:** Another postponement has been found necessary of the play for the Valentine medal. The second round in the ladies' contest was scheduled for today, but it was decided that the temperature was too low to allow of tournament work, an athletic match was again put off. An effort will be made to bring the remaining contestants together Friday.

**Brick Yard For Milton:** Fine beds of deep red clay of a color and quality not usually found in Wisconsin, have been discovered on the farm of L. S. and F. G. Borden, near Milton. It is the intention of the owners to establish a brick yard next spring.

## A Prolific Inventor.

A. E. Dolbear, who has just received the degree of L. L. D. from Tufts college, first came into prominence forty years ago, when he invented a writing telegraph. In 1874 he invented a magnetic telephone, in 1879 the static telephone, and as long ago as 1881 a system of wireless telegraphy.

## TOURNEY WILL BE PLAYED SOON

MATCH PLAY ON HAND BALL  
COURTS PLANNED.

CALL FOR ENTRIES IS MADE

Y. M. C. A. Players Are To Meet  
in Preliminary Championship Round.

Notices have been posted in the Y. M. C. A. building calling for entries for the hand ball tournament to be played at an early date. Sixteen entries are needed in the singles competition, and an equal number in the doubles, making eight teams competing in the latter.

## Game is Popular

If all goes as planned the first games in the match will be played in a few days. The courts have been in almost constant use since they were opened to the public, and many have spoken of their desire to enter a tournament, if one should be played. Thus far in the season none of the men can exhibit a very fast game of handball, but all are at about the same grade, some interesting matches will probably take place.

## Preliminary Tournament

This first tournament will not be regarded as the important contest of the year, but will be played more with the idea of arousing interest in the game, and affording an opportunity for the actual competition that is calculated to develop the player faster than the desultory sport on the court when not so much is at stake.

## GENERAL BRYANT STILL IN TROUBLE

Now He is Nursing a Grievance  
Against the Republicans of  
Rock County.

General Bryant, chairman of the Republican state central committee, is in a critical mood concerning the action of T. S. Nolan, chairman of the Rock County republican committee, in declining to accept Mr. McVicar as the speaker to open the campaign. The old gentleman is mildly exercised and would doubtless take a different view of the matter, if familiar with local conditions.

In declining to accept Mr. McVicar, Mr. Nolan was acting as the representative of the republican sentiment in Janesville, and this sentiment had crystallized in a demand for Senator Spooner. Mr. McVicar was a stranger, and whatever his qualifications as a speaker, the republicans felt that inasmuch as they had the bills to pay that they had a right of choice in speakers.

When Mr. Nolan wrote his letter there was no thought that the Governor might select an early date for his visit to Janesville. He had a perfect right to use his own judgment as to date, and the office commanded respect and insured an attentive audience whenever he might appear. This would not be true of any other speaker, outside of men of national reputation.

It would be helpful to General Bryant to remember that this is distinctly a Spooner county. It is also the banner republican county of the state. After months of turmoil and strife within the ranks of the party, the feeling prevailed that Senator Spooner could do more to promote harmony than any other initial speaker. Mr. Nolan was right and his action is endorsed by a constituency that is loyal to the best interests of the republican party.

## FALL FESTIVAL AT MADISON IS BEGUN

Program for the Week Includes Magnificent Floral Parade and Political Raillies.

This week Madison is in gala attire for the Fall Festival which the business men of that place are to hold. The affair is planned somewhat on the lines of a street fair or carnival, but has many unusual features. Today, the opening day, there will be a military and musical spectacle in which five bands of music and eight military organizations from Madison and other southern Wisconsin cities, will participate.

## Floral Day

Tomorrow is floral festival day. The central figure will be a magnificent floral procession. Upwards of 100 vehicles will be transformed into great moving bouquets and paraded with accompanying music through the streets of the capital city. At the head, in a large floral float will ride the queen of the festival. Wednesday is also Prohibition day, a political program being in preparation by a committee of that party.

## Democratic Day

Thursday is Democratic Day and Friday is Republican day. The state central committees of these parties have determined to outdo the other in the selection of orators for their respective days. It will be a great political debate. It seems probable that Mayor Rose, the Democratic gubernatorial candidate will speak Thursday, although he has already appeared in Madison in his campaign. If he decides to come, there is a likelihood that Gov. LaFollette himself will appear for the republicans.

## GONE TO HER FINAL REWARD

Miss Lucile Davis  
The remains of the late Miss Lucile Davis, daughter of Mr. and Mrs. Will Davis, formerly of this city were taken through this city today on the way to Milton where the funeral was held. They were accompanied by W. H. Davis. The bereaved parents were unable to leave home on account of the serious illness of two other children, who are very low with typhoid fever.

Wanted to Be  
Let Off Easily

Patrick Griffin Given Sentence, Despite His Promises to Be Good—  
Another Drunk.

Judge Field this morning gave sentence to two drunks, both of whom had been acquainted more or less intimately with the interior of the old court room, but who were rather ill at ease amid the gorgeous surroundings of the new building, for the first time.

## Would Do Better

Bert Baldwin was the first to be called, and he pleaded guilty to having been intoxicated last night. Upon promising to make an effort to keep straight in the future, His Honor let him off with a fine of three dollars or six days in jail.

**Plead For Mercy**  
Patrick Griffin did not escape so easily. The Judge saw that it was useless to expect him to keep sober, unless he had opportunity to get over the effects of the present jollification. Consequently he imposed a sentence of five days in jail and a fine of six dollars or twenty-five days additional. "Patsy" earnestly besought the judge to "turn me loose and try me once more; I might accidentally quit," and pleaded that he might as well be in for life as for twenty-five days. But the Judge was obdurate and "Patsy" was led off to jail.

The newest thing in photography, the development of films in broad daylight by the Kodak Developing Machine. It is a simple thing, done by means of an apparatus little bigger than the average camera, and as in all epoch-marking inventions, the only wonder is that nobody ever thought of it before. Cameras have been improved from year to year, and the making of pictures has been simplified to a point which brought thousands of recruits to the ranks, but the dark room has ever been a drawback. Now comes along a machine that not only does away with the dark room, but gives better results than the average amateur can secure in the dark room. Price \$4.00 and \$7.50.

The happy couple were attended by Miss Thomas and Mr. Hendrix and the ceremony was performed by Rev. Stephens, of Edgerton, in the presence of about forty relatives and friends. The wedding march was played by Miss Maud Rose.

The ceremony and congratulations were followed by a bountiful wedding supper, prettily served. Both bride and groom are well known and highly esteemed in Rock county, and they were the recipients of many handsome presents.

## Heart Trouble

Case No. 3.—Dr. S., a dentist, had heart trouble; had to give up his practice and could not walk for any distance without fainting; would faint if he walked upstairs. He finally concluded to try osteopathy. He consulted me January 8, 1900. I gave him twelve treatments. I saw him during holidays and he has no return of his trouble and is perfectly well. He resumed his practice after the third treatment.

C. O. Hood, D. O., La Salle, Ill. C. W. Bliss the Osteopath has an office in the Hayes Block.

A woman in this city is so afraid of microbes that she will not sit on a chair, unless it has been washed with Rock Mountain Tea. Smart woman.

## REVOLUTION DAUGHTERS MEET

State Chapter of Illinois Assembles at Springfield.

Springfield, Ill., Oct. 14.—One hundred delegates and visitors were present at the sixth conference of the Daughters of the American Revolution. Every chapter in the state was represented.

A reception at the governor's mansion was the feature. Governor and Mrs. Yates received, assisted by Mrs. Bond of Chicago, Mrs. Charles Fairbanks, national president general; Mrs. Coleman, regent of the Chicago chapter; Mrs. Deere, state regent, and Mrs. M. T. Scott, vice president general.

An evening in song and short stories by Mrs. Bond and a musical programme by Mrs. E. Huntington Hinkle of this city afforded entertainment. The banquet was danced by younger society girls of this city.

TO PROBE THE STATE SERVICE

Gov. Yates Appoints Commission to Investigate Merit System.

Springfield, Ill., Oct. 14.—Gov. Yates has asked the following to act as a commission to investigate the operation of the merit system in the appointment of employees of state institutions in other states and the central board of control plan instead of the separate boards of trustees, as in this state: Dr. William Jayne of this city; E. J. Murphy, warden of Joliet prison; Dr. W. E. Taylor, superintendent of Watertown insane hospital; Zina R. Carter, Edgar A. Bancroft, president of the Civil Service association and John H. Hamline.

COMMITTS MURDER AND SUICIDE

Jealous Man Kills Wife and Son and Wounds a Bystander.

Tracy, Minn., Oct. 14.—Ed Stricker shot and killed his wife and young son, seriously wounded Frank McCallister, and then committed suicide. Stricker and his wife had been living apart for two years. He followed his wife into McCallister's furniture store and drawing a revolver shot her dead. After firing another bullet through the head of their little boy he turned his weapon on his father-in-law, L. Harvey. The shot wounded McCallister, who is in a critical condition.

## Cured of Asthma

After Years of Terrible Suffering.

Mary Josephine Bezy, Floyd Knob, Ind., writes: "After suffering untold agonies for 32 years from Asthma, I was cured by Schillmann's Asthma Cure. I used to be so bad that I could not move without help, but I can now do all my own work." Another writes: "My little boy 7 years old has been a sufferer for several years, sometimes so bad off that we could not hold him in bed, expecting any moment for him to breathe his last. Doctors did him no good and we had almost given up in despair, when through accident we heard of Schillmann's Asthma Cure, tried it and it almost instantly relieved him." Mrs. D. C. Harris, Elbow P. ## EXCELLENT RECIPES.

GOOD AND PLEASANT THINGS THAT SATISFY THE PALATE.

**Bluefish Stuffed and Baked.**—Bluefish Salad and Dressed Salad Dressing. Melons at Their Best and Ways of Serving Them.

**Bluefish Stuffed and Baked.**—Mix one-fourth a cup of butter in one-fourth a cup of boiling water and stir into one generous cup of soft bread-crumbs. Add a dash of black pepper, one-fourth a teaspoonful of salt and a teaspoonful of "poultry seasoning" or powdered sweet herbs. Mix thoroughly and use to fill the open space in a bluefish. Before filling the fish with the dressing wash and wipe the inside, making sure that it is clean along the backbone. Then sprinkle with salt and pepper. Run a trussing needle threaded with twine through the tail, the center of the body and the head, and pull and tie the thread to secure the fish in the shape of the letter S. Score the fish on the sides and press a narrow strip of fat salt pork into the spaces. Rub over the outside with salt and pepper. Bake in a moderate oven about ten minutes to the pound, basting each ten minutes with butter, salt pork or bacon fat, melted in hot water. Slide from the fishsheet to the serving dish, and remove the threads used in trussing and holding in the dressing. Garnish with parsley and slices of lemon. Serve with tomato or drawn butter sauce. Chopped olives, pickles, capers or parsley may be added to the drawn butter sauce.

**Bluefish Salad (excellent).**—Separate the remnants of a baked bluefish into

**BLUEFISH STUFFED READY FOR BAKING.** flukes, discarding skin and bones. Set aside, covered, until cold. About an hour before serving sprinkle with salt and pepper and (for a generous pint of fish) the juice of a lemon. When ready to serve, dispose heart leaves of lettuce on the edge of a salad plate and turn the fish into the center, letting it come out over the stems of the lettuce leaves. Pour a boiled dressing over the top and spread evenly with a silver knife over the fish. Put a tablespoonful of chopped pickled beet at the stems of each group of leaves, a ring of the beet near the top and figures cut from the beet between.

**Boiled Salad Dressing.**—Heat one-third a cup each of vinegar, butter and hot water with half a teaspoonful of salt to the scalding point; then pour over the yolks of three eggs, beaten with half a teaspoonful of mustard and a few grains of paprika. Stir constantly until the mixture thickens, then set into cold water, beat it curdle. Strain when cold and when ready to use fold in one-third a cup of double cream, beaten solid.

**Sour Cream Biscuit.**—Sift together two level cups of flour, half a teaspoonful of salt, a scant half teaspoonful of soda and a teaspoonful of baking powder. Mix to a dough with one cup of thick sour cream and turn out on a floured board. Pat into a sheet three-fourths of an inch thick and cut into rounds. Bake about twelve minutes in a quick oven.

Melons in northern markets are at their best in August and September. In the illustration two of the most attractive of the many ways of serving

**ATTRACTIVE WAYS OF SERVING MELONS.** melons are given. In both the serving of the green rind is avoided. In one only the edible pulp, with the seeds, is brought to the table. In the other the red pulp is scooped out from the melon, cut in halves, by the spoonful.—Boston Cooking School Magazine.

**Household Hints.** Individual soup bowls of daintiest porcelain, with handles and a cover, supersede the old style soup plate. Granulated sugar is one of the uniformly pure foods on the market, says a Kentucky station report.

Picks feet a la creole are boiled very tender and served in a sauce seasoned with onions, tomatoes and paprika. The pretty old fashion of flower painting on velvet has been reinaugurated by leaders of fashion. Flemish onk is the up to date mode for the dining room.

## PRESS COMMENT.

**Ripon Press:** Now that Governor La Follette has seen fit to acknowledge and commend the superior ability of the Hon. John C. Spooner, it is certainly high time that republicans get together, lay aside petty prejudices and all work together for the good of the common cause and the principles that are dear to them.

**Madison State Journal:** "Whom the gods would destroy they first make mad." Would it not seem as if even an arrogant railroad president might see that top-lofty, insulting contempt in the White House, the most conspicuous point of the nation, would redound to the hurt of those who indulge in it?

**Milwaukee Evening Wisconsin:** There is a difference of 70,000 votes between the maximum claims of the chairmen of the republican and democratic state central committees as to the probable pluralities of Governor La Follette and Mayor Rose, and the lambs have plenty of room for gambling on the long green.

**Minneapolis Tribune:** Coach King of the Wisconsin football team is said to be much pleased with the showing made by his team in secret practice. As the Badgers will be one of the most formidable, and perhaps the most formidable team the Minnesotas will have to meet this season, this will be taken as a warning for the latter to brace up.

**Chicago Tribune:** The reciprocity treaty is the safety valve of the tariff. It affords a simple method of reducing duties here and there without going into the entire tariff question. Therefore republican senators who oppose reciprocity treaties such as those now before the senate play into the hands of the advocates of the general revision of the tariff, which all business men dread.

**Stoughton Hub:** We doubt if Mr. Rose could mix a few grains of diplomacy and political sagacity with his talk if he tried. He is not built that way. He holds the stalwarts and his brother democrats, but the wavering fellows get away. Democratic lambasting of La Follette in a La Follette town will never capture La Follette votes. Nay, nay, Pauline!

## New Glassware.

In opalescent glass there are delightful flower holders, both for long and short-stemmed varieties. A daffodil and a tulip holder is rather a novelty. A bread bowl with deep-fluted edges is generally used, the opening being fitted with a removable wire frame, through which the flower stems are inserted.

## Has Risen to High Position.

R. E. Cahill, who has just resigned as division superintendent of the Missouri Pacific at Nevada, Mo., to accept the superintendency of the Choctaw, Oklahoma and Gulf railroad, with headquarters at Little Rock, Ark., began railroad work as a water boy on a construction train in 1872 at La Salle, Ill.

## Queen Buys Carducci's Library.

The queen dowager of Italy has bought the books and manuscripts of the famous poet and critic Carducci, leaving him the undisturbed use of the library for his lifetime. Catherine the Great of Russia prevented in the same way the dispersion of Diderot's library.

## Record for Slow Shipbuilding.

A record in slow shipbuilding is reported from Spain. Ten years ago a cruiser, the Prince Sade Asturias, was put on the stocks, and a few days ago the minister of marine informed King Alfonso that the vessel would be ready to take part in the forthcoming naval review in the Mediterranean.

## Requisites for a Minister.

Prof. Stetson of the University of Chicago told the students in the course of a lecture on "Psychology and the Preachers" the other day that a minister should "compose his own hymns, words and music; should be a skilled art critic, have a smattering of architecture and be an expert psychologist."

## To Home Seekers

Wilson Lane has a fine tract of prairie land in Arkansas for sale, at low figures and on reasonable terms. These lands have never been broken and are selling at from \$3 to \$20 per acre. The country is not unlike southern Wisconsin; some prairie and some timber. Home seekers can go in our special sleeping car, Oct. 21st for one fare for the round trip with 50 cts. extra per day for this accommodation. This car remains with us until we are ready to return. I think this is the best offer in land I have ever had. We go the 21st. See me if you want to go.

## A Choir of Babies.

Grace church, New York, boasts of the youngest choir singers in the world. Every Sunday afternoon a chorus of baby girls takes part in the service. The youngest two of this band are only four years old—hardly able to walk, and yet they chant in perfect unison, clearly and distinctly. Each small girl wears a white apron and a closely fitting baby cap, and they are a picturesque sight.

## King Edward Sets Fashion.

Since it became known that King Edward VII. has been in the habit of taking a pint of champagne at breakfast some of the younger swells of New York city have tried it, too. Before that, though, many of these young men were accustomed to sip a pint of sauterne at breakfast. They considered that a mild "hair." Champagne is more of a "horsehair."

## A New Educational Factor.

The king and queen of Roumania are about to establish little theaters in all the rural communes of their kingdom. In these theaters the villagers will give once or twice a week, moral plays, having as their object the inculcation of religious and social precepts. The first of the theaters will be built on one of the royal estates.
